SEA ISLAND HORRORS.

SURGEON MAGRUDER'S REPORT TO THE MARINE HOSPITAL SERVICE.

SUFFERINGS OF THE PEOPLE FROM THE GREAT CYCLONE DESCRIBED-NOBLE WORK OF THE RED CROSS SOCIETY.

Washington, Nov. 11.-Passed Assistant Surgeon mitted to Surgeon-General Wyman his report on the inspection of the Sea Islands of South Caro-lina. The islands selected for the work of sanilation were those surrounded by the Beaufort and Coosew rivers and St. Heiena Sound, and included St. Heiena, Ladies, Warsaw, Dattab, Coosew, Corn and Paris. The territory which suffered most from the storm includes an area of about 150 square miles of flat, low-lying land, supporting an estimated population of 9,000 people, almost en tirely negroes. Many of the islands do not contain single white person, and on none of them does the white population amount to 10 per cent of the

Surgeon Magruder says that it does not fall within the scope of his report to attempt to de-plet the devastation and disaster left in the track of a hurricane whose velocity exceeded 119 miles an hour, and which inundated this low-lying coun try with a tide which in different localities reached an estimated height from seven to twelve feet above high-water mark, nor to chrenicle the in-dividual acts of heroism and daring performed by hours, on this limited area, 660 houses were wrecked and washed away, and 211 persons drowned or crushed beneath the timbers of their falling uses, bears ample witness to the horrors of this

After obtaining all information possible concerning the islands, he began his inspection, which lasted eight days. Nearly every plantation was visited, every burying place was inspected. In the hurried burial, just after the storm, owing to the water rising, after a depth of two feet had been water rising, after a depth of two feet had been reached, the graves were necessarily shallow, and considerable stench arose therefrom, but prior to the date of this inspection, all bodies had been buried, no odor could be detected, and the cemeteries thereafter required no further attention, with One exception, where, in accordance with the teachings of an old superstition that all persons drowned should have, as they expressed it, "a watery grave, the burying place had been located on the beach so that the bottom of the graves would be below high-water mark, and the bodies washed by every tide. Some of the graves here were opened by the

The chief source of danger to health at the time of inspection seemed to be the polluted drinking water. The high tide passed over many of the wells, saturating them with salt water, rendering wells, saturating them with sail water, rendering them brackish and unit for use. He had the wells pumped out daily for a week, and 155 were thus rendered fit for use. When the sea receded to its proper limits innumerable pools of brackish water were left. Under the influence of the sultry weather which then prevailed they gave rise to unpleasant odors and increased to an alarming degree the malaria from which the section is never free. To relieve this unsanitary condition gangs of laborers were put to work, and thirty-nine miles of drains were cleared and opened, relieving a borers were put to work, and thirty-nine miles of drains were cleared and opened, relieving a large portion of the country of the surplus water. Owing to the large number of sick noticed on the first inspection of the islands, it was thought advised to station physicians at some of the points where the need seemed greatest. Accordingly, Dr. Carson was assigned to St. Helena and afterward to Coosaw and Ladies Islands; Dr. Copeland to St. Helena and Warsaw; Dr. Alien Stuart to Faris Island, Dr. J. C. Woodruff to Edisto, and Dr. W. P. Gibbes temporarily to Ladies, Coosaw and Corn Islands. The work which fell to their lot was arduous in the extreme. The inconveniences and privations which their nomadic life on the islands necessarily entailed they bore without complaint, and the cheerful manner with which they performed their duties is worthy of all commendation. Medical attendance and medicines were furnished free to all sick or disabled applicants, and the large number of patients treated bears evidence of the appreciation of the islanders of this form of assistance. During the six weeks of active work on this section 2,709 cases were treated, of which 2,542 were malarial fever.

In concluding his report Surgeon Magruder says: The crops were almost entirely lost. St. Helena and the adjacent territory suffered most, not only in this way, but also in loss of life, stock and dwellings. It will therefore be readily seen that the most difficult question which now suggests itself is that of subaisting these impoverished people during the approaching winter. A few supplies were saved from the flood, and these have almost all been consumed, and it is a question of the large population has been undertaken by the Red Cross Society, under the leadership of its president, Miss Clara Barton, who has already been in the field for the last six weeks doing noble work, and it is surely to be hoped that the approach of spring will find another magnificent carity brought to the successful termination which transly characterizes the

TWO STRIKES ENDED IN PENNSYLVANIA.

sbarre, Penn., Nov. 11.-The strike at the abarre lace factory, which has existed the weavers having declared their willingness to company until the market improves. There considerable trouble at the mill yesterday, owto an attempt of some of the strikers to prethe resumption of work. A leader named the sumption of work and were arrested, and were the leader to ball for interfering with these who desired

to go to work. The concern employs 800 people, who turn out 4,500 pairs of lace curtains a day. Huntingdon, Penn., Nov. II.—At a general meeting of all the disaffected miners in the Broad Top region, held on the Sandy Run branch yesterday, it was decided by ballot, after a long debate, to accept the reduction of from 50 to 40 cents a ton and declare the strike off. This decision affects about 1,000 miners and mine workers. All of them reported at the mines this morning.

PADDLING PRISONERS AT ELMIRA.

TESTIMONY TAKEN DEFORE THE INVESTIGATING COMMITTEE. Auburn, N. Y., Nov. 11.-The Elmira Reformatory

Investigating Committee was at work early this morning. The Rev. Dr. William Searles said be was chaplain in Auburn Prison for fifteen years He remembered a transfer prisoner from Elmira about ten years ago, who showed him his back which was badly lacerated. The man said that he had been punished two days previous at the formatory. His attention was called to another bath. His back was black and blue in a doze places between the hips and the shoulders.
Frank L. Wallace testified that he was trans ferred here for refusing to tell Mr. Brockway when ferred here for refusing to tell Mr. Brockway where his mother and sisters lived. For this reason, while at the reformatory, he was chained by the arm for nine days and nights, in a solitary cell, in such a position that he could not stand up. Afterward, during an interview with Superintendent Brockway, the latter kicked him in the face. He was subsequently placed in solitary confinement for four

months on two meals a day.

James Boyd testified that while at the reformatory he saw an inmate after he came out of the bathroom. His head had been pounded into a jelly. He also related other evidences of cruelty in the bathroom which had come under his notice. the bathroom which had come under his holes. The witness knew a reformatory inmate, one Earl, the son of an undertaker in Brooklyn, who is now an idiot, the result of the excessive punishment he had received. Another inmate, Cox, received severe panishment in the bathroom. He was struck on the head by Mr. Brockway several thres for turning around while being paddled.

Thomas Walsh said he had been paddled eight times by Mr. Brockway, and struck twice across the head. Edward Brindle, of New-York City, swore he was paddled for failure to perform his task. William Clark testified that he was paddled regularly three or four times a month, for two years, by Mr. Brockway. He was locked in a dark solltary cell, and fed on bread and water for eight days, with both hands chained to a ring in the floor, and was not released once during that time. He was also locked up in a screen cell for fifty-nine days, and fed on two pieces of bread and half a cup of water a day. He had nothing to wash himself with, but was given a bath once a week. Clark said he was a skelton when he came out of confinement. The witness knew a reformatory inmate, one Earl,

KILLED IN A HOTEL BY ESCAPING GAS St. Louis, Nov. 11 .- At 6 o'clock this morning the attaches of the St. James Hotel detected a strong to the transom, and the porter saw two men lying on the single bed in the room. A hasty examina tion showed that the men had been dead several hours. Their names were B. Perry Collins, age nincteen, of Washington, D. C., and J. Salmon, aged twenty-five, of New-York. The men were last and were shown to their room. At 10 o'clock yes terday morning the employes rapped on their door terday morning the employes rapped on their door, but the men refused to get up. Later in the afternoon a knock at the door brought no response, and the men were supposed to be sleeping. When found this morning both men were lying in a single bed, their arms clasped about each other. The gas was pouring from the single jet in the room, the doors, windows and transom of which were tightly closed. The gas fixture is an old style affair, without any stop cock, and it is supposed the men, in turning off the flame, twisted the valve beyond the safety point. Both men were connected with the advertising department of the Old Dominion Cigarette Company.

Atlanta, Ga., Nov. 11.-Owing to the absence of several people who were expected, to-day's programme of the Christian Workers' Convention was materially changed and made up chically of im-promptu addresses. The Rev. Dr. Torrey, presi-

CHRISTIAN WORKERS DISCUSS MISSIONS.

promptu addresses. The Rev. Dr. forrey, presi-dent of the association, conducted the exercises, and the subject of mission work, taken up on the and the subject of mission work, taken up on the preceding day, was continued. P. P. Greenwood, of the Boston Seamen's Bethel, described the work done there. W. C. Beacle, of the Springheld School for Christian Workers, spoke of the work carried on in that institution. Mrs. Whitmore, the well-known evangelist of New-York, also addressed the convention, and gave a description of the rescue work done in the Door of Hope Mission in New-York, Grant C. Todd, of the Union Mission of Washington, D. C., told of the early struggles of that institution. The afternoon session was taken up by an address by the Rev. Thomas Bone, the seamen's evangelist, from St. Catherine's, Canada. The attendance to-day was large and delegates are still comins.

SHEEHAN'S MEN AERANGED.

INVESTIGATING THE DISGRACEFUL WORK IN

Buffalo, N. Y., Nov. 11 (Special),-Sheriff Beck, Buffalo, N. Y., Nov. II (Special).—Sheriff Beck, Under Sheriff Steele, Superintendent Chambers and Captain Regan, of the First Precinct, were in the police court this morning to answer questions which may throw some light on the outrageous work of the Sheriff and the Police Department in the First Ward on Election Day. If the examination accomplishes what the public-spirited citizens who have it in charge hope it will, enough evidence will be secured to furnish material for charges for the removal of the quartet. Although accusations were not made against them, and they were instructed that they need not give testimons which would incriminate the n selves, Lieutenant Governor Sheehan's law partner was on hand to

examination was postponed until Monday.

Superintendent Chambers of the Police Department was put on the stand and subjected to a ment was put on the stand and subjected to a searching examination by Ansley Wilcox, who made it plain that the Police D-partment had been grossly negligent of its duty on Election Day. The Superintendent tried to place the whole was the officer in charge at the now famous Fourth District of the First Ward, and who witnessed the disgraceful proceedings there without lifting his hand to interfere. Captain Regan is in many

respects one of the best officers on the pelice force, and it is said that his consuct on Election Day was due to an understanding with Shechan that if he carried the First Ward he should be made Superintendent of Police.

Fugilist and ex-convict "Billy" Baker, who was a special deputy sheriff, and did valunt duty fin a saulting Republicans at the Fourth District of the First Ward polling-place, was arrested to-day because a Republican citizen stumbled upon him by accident. The police say that they have been looking for him since Tucsiay on charges of assault and thesal resistration. He was released on bail, and was back in a grog-shop in twenty minutes from the time be was arrested.

TWO VESSELS BELIEVED TO BE LOST. Philadelphia, Nov. II.—The greatest anxiety prevalls in shipping circles regarding two vessels whose loss would entail the sacrifice of twenty-six lives. They are the Philadelphia schooner Genevieve, Captain Charles Haley, from this port October 7 for Charleston, and the Austrian bark Ljubayr, Captain Banich, from Flume April 12 for Philadelphia. Both are so long overtue that they have been given up as lost by the insurance comhave been given up as lost by the insurance com-panies which hold risks on them. The Genevieve carried a crew of seven men, and Franklin Smith, her managing owner, believes that she went down with all on board during the cyclone of October II. The mysterious disappearance of the Ljubayr, with a crew of nibeteen men, can in no way be accounted for. Nothing has been heard of her since she salled from Fiume on April II.

HE KILLED HIMSELF AT HIS WIFE'S SIDE. Michael Giffaey, a laborer, who had been employed in Polley Commissioner McClave's lumber yard, and nad lived on the taird floor of the tenement house No. 559 West Thirtiethesh, committed suicide in his home yesterday morning because illness had made him despondent. He morning because liness had node him despondent. He became ill about a week ago, and almost humelistely he lost heart and declared that be could not recover. His wife watched him night and day. She fell asleep at his side yesterday morning, when he also seemed to be asleep. From the bell Gadney morning to reach a loaded revolver.

narket is firm, and since election there has been a much better feeling existing among manufactur ers. The price had advanced during the week, and large sales have been made. The mills are well en gaged ahead into January, and there is no likelihood of a further decline in quotations. The following is the weekly statement; Production, 190,000 pieces; deliveries, 279,000; stock on hand, 281,000; last week's stock, 272,000; enter, 259,000, of which 147,000 were odd goods, 212,000 were 64x64s, 143,000 spots and Were our goods, 12,000 were 64x64s, 142,000 spots and 216,000 futures. Sales for weekly delivery: Novem-ber, 141,000; December, 121,000; January, 12,000; Feb-ruary, 18,000; March, 2,000; April, 6,000; May, 5,000; June, 4,000. The market is firm, and the price is 245-16 cents for 64x64s.

THE DEFEAT OF THE DEMOCRATS KILLED HIM. Lambertville, N. J., Nov. 11.-It has just been learned that the death of Freeholder Levi Reynolds which occurred the morning after Election Day, was caused by his worriment over the defeat of the Democratic candidate for the Assembly from this district. Mr. Reynolds was an aspirant for the postmast recip here, and built great hopes on a Democratic Assemblyman being elected. He spent great deal of his time out late nights electioneeting, and this and worriment over the result caused his death. As soon as the result of the election was made known to him he went to bed, and died the next morning at 3 o'clock. He was seventy-nine years of age. He remarked on Election Day that if the election went against him it would kill him.

Louisville, Ky., Nov. 11.-Information just at ing eight strangers rode into North Middleton, Bourbon County, and it is supposed that their intention was to rob the bank at that place. They shot at every person seen on the street, and mortally wounded Burt Morris, an old negro. The way of stimulating orders for steel fails of the great reduction in price announced from Pittsburg brings out the information that it is not likely to have any pronounced effect in that direction.

President George B. Roberts, of the Pennsyl-President George B. Roberts, of the Pennsyl-Vania Railroad, said: "We are not speculating on vania Railroad, said: "We are not speculating on the misfortunes of others, and our purchases of the misfortunes of others, and our purchases of the house, but it was too late to help the others, and our purchases of the house, the contracts for steel rails for the coming year, the contracts for steel rails for the coming year, are likely which are generally placed in December, are likely
